CLIMATE ACTION PLAN 2025-26

The Challenge

The Department for Education (DfE) have stated that by 2025 all education settings will have nominated a sustainability lead and put in place a Climate Action Plan (CAP) as set out in the Sustainability and climate change strategy paper.

Aims

A Climate Action Plan typically covers four key areas:

1. Decarbonisation
2. Adaptation and resilience
3. Biodiversity
4. Climate education, training and jobs

Climate change goals rely on contributions from:

- education staff
- operational staff who understand the technical aspects of your school site
- senior leadership team
- pupils and parents

We are committed as a school to reduce our carbon footprint and work together through the CAP to successfully incorporate positive changes within the school and the surrounding environment.

Action plan

Goal	Action	Steps	Timeline for the action or expected completion date	Resources	Actions completed
<p>Decarbonisation</p>	<p>Understand your school's carbon footprint by identifying where your emissions come from.</p> <p>Review energy usage of lighting, boilers and look at alternatives to reduce carbon emissions.</p> <p>Motion sensors installed to reduce lights being on for long periods of times.</p> <p>Purchase LED lights and replace existing lightbulbs where necessary.</p> <p>Reduce carbon emissions in our buildings by installing reflector panels behind radiators.</p>	<p>Use an online tool such as Keep Britain Tidy's to get a breakdown of carbon emissions.</p> <p>Health and safety lead and caretaker to complete audit of energy usage and report findings to SLT and governors to action.</p> <p>Headteacher to research the Public Sector Low Carbon Skills Fund - GOV.UK (www.gov.uk) and discuss with governors how it can be used to reduce energy usage in school.</p> <p>Reduce lag timers from 15minutes to 5 minutes to reduce time lights are on unnecessarily.</p> <p>Locate external wall radiators.
